Effortless setup and customization

Set up your own branded slide-out shopping cart in no time with our easy-to-use visual editor—no coding expertise or high costs required.

AI-powered personalization

The Rebuy AI suggests personalized product recommendations that engage customers and increase average order value.

Conversion-boosting features

Drive revenue and delight customers with in-cart features like a Tiered Progress Bar, Gift with Purchase, Frequently Bought Together, Buy More & Save More, Switch-to-Subscription, and more.

BPN
BARE PERFORMANCE NUTRITION

"Since we implemented the Smart Cart our subscription program has been increasing consistently with no up or down wiggle at all."

Brian Purkiss,
Ecommerce Manager

Seamless integration

Preview changes in Rebuy before publishing, make no-code updates and apply consistent defaults across multiple collections.

Test, optimize, and automate

A/B test up to 10 cart variations to discover what drives the most revenue or conversions, then schedule winning carts to go live and expire automatically for flash sales, seasonal promotions, or holiday campaigns.
