💰 Increase conversion rates

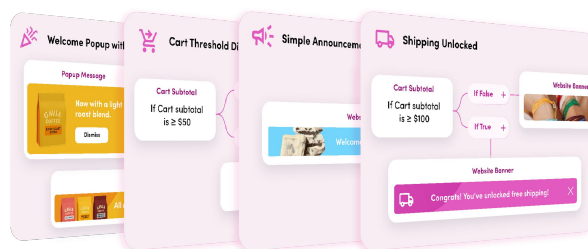

Reduce friction in the customer journey with fewer clicks to checkout and personalized offers that make it easier for shoppers to complete a purchase.

⚙️ Easy-to-use builder

Use customizable components like pop-ups, banners, segmentation, cart subtotal triggers, and more to design the right experience for your store.

🔗 Global flows or link-based

Run always-on Global Flows site-wide, or trigger Link-Based Flows through tracked URLs for targeted, or time-sensitive offers linked to specific products, pages, or campaigns.

📌 Curated templates

Set up flows in seconds with pre-designed templates like sitewide banner, cart threshold discount, welcome popup with sitewide banner, and shipping unlock.

🌟 Flexible use cases

Create sitewide promotions, segment experiences for new or returning visitors, link campaigns to email/SMS/influencers, add free gifts and auto apply discounts.

📊 Full performance visibility

Preview flows, view status, and monitor metrics like clicks, conversions, AOV, and revenue per visitor — all from a centralized dashboard.
